

Interview Flow Chart Within the Inverted Triangle

This chart can be used as a reference on how you should organize your sources, quotes, content, etc. within your story.

Key Points:

- * Don't start a story with a quote.
- * Each time you use a direct quote, it is a new paragraph.
- * Supporting paragraphs should be organized from most important to least important.
- * Your quotes should be organized by content, not the source. Also, they should be organized on order of importance.
- * Kickers can be quotes.
